

TIPS TO EXPLORE YOUR VISION AND REMAIN OPEN MINDED

Give yourself permission to think about possibilities, day dream or be creative

Make strategy and vision part of your job and make it a priority

When an idea comes to you, resist the temptation to dismiss it or move into action. Toy with the idea for a little longer

If the idea or concept seems sound, mention it to others, get their ideas and thoughts

Understand where you are now and where you need to be. Ask those around you for new insights to help create the big picture

Stop yourself or someone else going into fix/how mode. There are always negatives and risks, by listening to them too early you will dismiss every new idea
